Therefore, VA has defined new assistive technology as an advancement the Secretary determines could aid or augment the ability of a Veteran or Servicemember to live in an adapted home. Grantees will be expected to leverage grant funds to plan, develop, manage, and implement new assistive technologies for specially adapted housing. Since the new program would also be open to individuals and private entities, some of the applicants will not meet the definition of non-Federal entity or recipient, as defined under part 200, and certain provisions of part 200 may not be applicable to all applicants in this technology grant program. Where the Secretary determines a provision is not applicable or where the Secretary determines that additional requirements are necessary due to the uniqueness of a situation, the Secretary would apply the same standard applicable to exceptions under 2 CFR 200.102. Although part 200 does not define the term exception, Sec. 200.102 is clear that an exception can relax an existing requirement or make additional, more restrictive requirements on a participant. Section 200.102 requires that if an exception is more restrictive on a certain class of participants than that which is otherwise provided in part 200, VA must receive approval from OMB. If an exception is less restrictive than what is provided in part 200, Sec. 200.102 authorizes VA to grant the exception on a case-by-case basis. It is impossible to anticipate every way in which the Secretary can or should exercise oversight authority. The purpose of this provision is to ensure that a loophole in a regulation does not unduly hinder the Secretary's ability to protect the public interest or prevent private individuals or organizations from participating because

of technicalities related to oversight.

Applicant Eligibility:

Individual/Family; As authorized by 38 U.S.C. 2108, the Secretary may award grants to a person or entity for the development of specially adapted housing assistive technologies. In order to foster competition and best serve the needs of Veterans and Servicemembers, VA is placing no restrictions on the types of eligible entities outside of threshold criteria listed in the NOFA. All technology grant recipients, including individuals and entities formed as for-profit entities, will be subject to the rules of the Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and other Non-profit Organizations, as found at 2 CFR Part 200. Where the Secretary determines that 2 CFR Part 200 is not applicable or where the Secretary determines that additional requirements are necessary due to the uniqueness of a situation, the Secretary will apply the same standard applicable to exceptions under 2 CFR 200.102.

Beneficiary Eligibility:

Individual/Family; Projects funded under this announcement must involve new assistive technologies the Secretary determines could aid or enhance the ability of a Veteran or Servicemember to live in an adapted home. PAYMENTS TO STATES FOR PROGRAMS TO PROMOTE THE HIRING AND RETENTION OF NURSES AT STATE VETERANS HOMES,

FEDERAL AGENCY:

VA HEALTH ADMINISTRATION CENTER, VETERANS AFFAIRS,
DEPARTMENT OF

AUTHORIZATION:

Title 38: Pensions, Bonuses, and Veterans' Relief Chapter 1, Part 53, Title 38, Part 53, Section 101

OBJECTIVES:

In accordance with the provisions of 38 U.S.C. 1744, this part sets forth the mechanism for a State to obtain payments to assist a State Veterans Home (SVH) in the hiring and retention of nurses for the purpose of reducing nursing shortages at that SVH.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

(a) VA will make payment to a State Veterans Home (SVH) for an employee incentive program to reduce the shortage of nurses at the SVH, when the following conditions are met: (1) The State representative applies for payment in accordance with the provisions of 53.20; (2) The SVH receives per diem payments from VA under the provisions of 38 U.S.C. 1741 for one or more of the following: Adult day health care, domiciliary care, or nursing home care; (3) The SVH has a nursing shortage that is documented by credible evidence, including but not limited to SVH records showing nursing vacancies, SVH records showing nurse overtime use, and reports documenting that nurses are difficult to hire in the local area and difficult to retain as employees at the SVH; (4) The SVH does not use payments under this part to pay for all or part of a nurse's standard employee benefits, such as salary, health insurance, or retirement plan; (5) The SVH provides to the Director, Geriatrics and Extended Care Operations, documentation establishing that it has an employee incentive program that: (i) Is likely to be effective in promoting the hiring and retention of nurses for the purpose of reducing nursing shortages at that home, and (ii) Is in operation or ready for immediate implementation if VA payments are made under this part; (6) The payment amount applied for by the State is no more than 50 percent of the funding for the employee incentive program during the Federal fiscal year; (7) The SVH employee incentive program includes a mechanism to ensure that an individual receiving benefits under the program works at the SVH as a nurse for a period commensurate with the benefits provided, and, insofar as possible, the program is designed to eliminate any nursing shortage at the SVH within a 3-year period from the initiation of VA payments; (8) The SVH, if it received payments under this part during a previous Federal fiscal year, has met the reporting requirements of 53.31(a) regarding such payments; (9) The SVH credits to its employee incentive program any funds refunded to the SVH by an employee because the employee was in breach of an agreement for employee assistance

ASSISTANCE LISTINGS DESCRIPTIONS

funded with payments made under this part and the SVH credits the amount returned as a non-Federal funding source; and(10) The project does not involve the construction, acquisition, expansion, remodeling or alteration of the SVH.(b) VA intends to allow flexibility and innovation in determining the types of employee incentive programs at SVHs eligible for payments. Programs could include such things as the provision of short-term scholarships for continuing nursing education, sign-on bonuses for nurses, student loan forgiveness programs, and improvements to working conditions. In determining whether an employee incentive program is likely to be effective, VA will consider any information available, including past performance of the SVH's program funded by payments made under this part.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications submitted in response to a FOA/RFA must be submitted through Grants.gov using the VA-ORD Application Guide SF424 Research and Related (R&R) and forms available on the VA-ORD Intranet site at <http://vawww.research.va.gov/funding/electronic-submission.cfm>. ORD FOA/RFAs are not searchable in Grants.gov and are obtained through the aforementioned Intranet site.

Award Procedure:

Applications submitted in response to a VA-ORD FOA/RFA will be reviewed through a two-tier system. The first level of review will be performed by a Scientific Review Group (SRG) composed of scientists who have expertise in relevant scientific disciplines and current research areas. The purpose of the SRG is to evaluate the scientific and technical merit of applications. The SRG does not make funding decisions. The second level of review will be performed by VA-ORD, based not only on considerations of scientific merit (as judged by the SRGs), but also on the relevance of the proposed study to the mission, programs, and priorities of VA-ORD and the awarding Service. Final funding decisions are made at the discretion, and approval, of the awarding Service Director. VA-ORD uses a Just-in-Time process to ensure all VA regulations and policies are met prior to making a final award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days.

Appeals:

Other. The appeals process is intended to ensure that the scientific review of all applications is fair and equitable. It is not intended as a means to resolve differences in scientific opinion, to adjust funding decisions, or to circumvent the peer review process. The basis for an appeal and the procedure for submitting an appeal will be detailed in the FOA/RFA.

Renewals:

Other. Renewal applications are not accepted for all award types. The FOA/RFA will specify if renewal applications will be accepted.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Not applicable. Method of awarding/releasing assistance: lump sum.

Reports:

PIs are required to submit an annual research performance progress report or other interim performance report as per the FOA/RFA. The requirement to submit a progress report allows for the documentation of awardee accomplishments and compliance with terms of award and describes the scientific progress, identifies significant changes, reports on personnel, and describes plans for the subsequent budget period or year.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. The Office of Research Oversight (ORO) serves as the primary VHA office exercising oversight concerning all matters of research compliance and assurance. ORO conducts onsite Comprehensive Program Reviews (CPRs) that provide a high-level, integrated evaluation of all components of the VA medical facility's research compliance program that are subject to ORO oversight (i.e., human research protections, research information security, laboratory animal welfare, research safety, and general research administration). A CPR may be followed by an onsite focused compliance review, remote remediation, and/or onsite/remote technical assistance, targeting the specific areas of high vulnerability or potential noncompliance identified in the CPR.

(Vocational Rehabilitation),

FEDERAL AGENCY:

VETERANS BENEFITS ADMINISTRATION, VETERANS AFFAIRS,
DEPARTMENT OF
AUTHORIZATION:

Veterans' Rehabilitation and Education Amendments of 1980, Public Law 96-466,
38 USC Code 3102.

OBJECTIVES:

To provide all services and assistance necessary to enable service-disabled veterans and service persons hospitalized or receiving outpatient medical care services or treatment for a service-connected disability pending discharge to get and keep a suitable job. When employment is not reasonably feasible, the program can provide the needed services and assistance to help the individual achieve maximum independence in daily living.

TYPES OF ASSISTANCE:

Direct Loans, Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

The program offers the services and assistance necessary for an individual to increase their level of independence in daily living, or obtain and retain suitable employment. This is employment that matches the individual's aptitudes, interests, and abilities and does not worsen the individual's disabilities. An individual may reach an employment goal directly by receiving job seeking and job placement services. If direct placement is not possible, the program provides education or training to qualify the individual for employment. If the individual requires education or training, the program provides for direct payment to service providers for the entire cost of tuition, books, fees, supplies, and other services. As part or all of a rehabilitation program, individuals may receive services and training designed to help them increase their level of independence in their homes and communities. Counseling services are provided to the individual throughout his or her participation in the program. In addition to disability compensation, the veteran receives a monthly subsistence allowance when participating in training at least half-time. Advances of up to \$1,041.48 may be made to veterans to meet unexpected financial difficulties. These advances do not bear interest and are repaid out of future VA benefit payments. Although no set repayment period is established, the monthly rate of repayment may not generally be less than 10 percent. In general, a new advance may not be made until a previous advance has been fully repaid. Usually, the training phase of the rehabilitation program may not exceed the equivalent of 48 months of full-time benefits nor may training be provided more than 12 years after the individual becomes eligible to apply for the program. Following training, or sometimes as the whole of a rehabilitation program, the veteran may also receive up to 18 months of counseling, job placement and post-placement services. The veteran may receive an employment adjustment allowance equal to 2 months of subsistence during this period of

ASSISTANCE LISTINGS DESCRIPTIONS

services, but only if employability was achieved as a result of services received in a program which included training. Veterans who meet certain requirements may receive assistance to become self-employed.

Applicant Eligibility:

Individual/Family; Veterans of World War II and later service with a service-connected disability or disabilities rated at least 20 percent compensable and certain service-disabled servicepersons pending discharge or release from service if VA determines the servicepersons will likely receive at least a 20 percent rating and they need vocational rehabilitation because of an employment handicap. Veterans with a 10 percent service-connected disability may be eligible if they first applied for vocational rehabilitation prior to November 1, 1990, and they have an employment handicap. In addition, veterans with compensable ratings of 10 percent may also be eligible if they are found to have a serious employment handicap.

Beneficiary Eligibility:

Veteran/Service person/Reservist (including dependents; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Veterans of World War II and later service with a service-connected disability or disabilities rated at least 20 percent compensable and certain service-disabled servicepersons pending discharge or release from service if VA determines the servicepersons will likely receive at least a 20 percent rating and they need vocational rehabilitation because of an employment handicap. APPENDIX I: LISTINGS REQUIRING EXECUTIVE ORDER 12372 REVIEW

This appendix catalogs listings requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual listing description in the Catalog to determine whether the listings under which he/she plans to apply is subject to E.O.12372. Consult the Federal agency's application package for instructions on State notification.

APPENDIX II: BUDGET FUNCTIONAL CODE APPENDIX

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which an assistance listing is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated assistance listing, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated assistance listings for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

1. 0: Regular budget schedules
 2. 1: Supplemental appropriation
 3. 2: Legislative proposal, not subject to PAYGO
 4. 3: Appropriations language to be transmitted later
 5. 4: Legislative proposal, subject to PAYGO
 6. 5: Recession proposal
 7. 6: Adjustments to 1996 continuing resolution levels
- The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government. General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and listings in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a listing is split between two or more sub functions: (a) if all sub functions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

1. A: Formula Grants
2. B: Project Grants
3. C: Direct Payments for Specified Use
4. D: Direct Payments with Unrestricted Use
5. E: Direct Loans
6. F: Guaranteed/Insured Loans
7. G: Insurance
8. H: Sale, Exchange, or Donation of Property and Goods
9. I: Use of Property, Facilities, and Equipment
10. J: Provision of Specialized Services
11. K: Advisory Services and Counseling
12. L: Dissemination of Technical Information
13. M: Training
14. N: Investigation of Complaints
15. O: Federal Employment
16. Z: Salaries and Expenses

Listed below are major functions and sub-functions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog assistance listings are listed following each applicable sub function (or major function). Note that some sub functions are not applicable to Catalog assistance listings. The alphabet(s) in parentheses following the listing title, shows the type(s) of assistance available through that assistance listing. The alphabet codes with accompanying types of assistance are as follows:

APPENDIX III: SOURCES OF ADDITIONAL INFORMATION

Additional information concerning Federal assistance listings and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses) however; they are not the offices to which an applicant applies for an assistance listing. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Center Program and the Federal Executive Boards.

FEDERAL CITIZEN INFORMATION CENTER PROGRAM -- The Federal Citizen Information Center Program (FCIC) is a focal point for information about the Federal government. The FCIC assists people who have questions about Federal agencies, services, and listings, but do not know where to turn for an answer. FCIC information specialists either answer an inquirer's question directly or perform the necessary research to locate and refer the inquirer to the expert best able to help. Telephone users may call the FCIC toll-free on (800) 688-9889 weekdays between 9 a.m. and 8 p.m., Eastern Time. TTY users may call toll-free to the FCIC from anywhere in the U.S. by dialing (800) 326-2996.

FEDERAL EXECUTIVE BOARDS -- Federal Executive Boards (FEBs) are composed of heads of Federal field offices in the metropolitan area. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision of the Office of Personnel Management (OPM). Federal Executive Associations, and Councils, have been locally organized in over 80 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity. For further information, contact the Assistant for Field Operations, Office of Personnel Management, Room 5524, 1900 E Street, NW., Washington, DC 20415-0001. Telephone: (202) 6061001.

CFDA Print Edition -- In addition to the downloadable electronic version of the CFDA Print Edition, a printed hard copy may be purchased for a fee through the U.S. Government Bookstore at <https://bookstore.gpo.gov/>.

REFERENCE SOURCES

The Budget of the United States Government -- The Budget of the United States Government sets forth the President's comprehensive financial plan and indicates the President's priorities for the Federal government.

Information on assistance listings by function, agency, and account, and detailed budget estimates is located in the Budget. Federal assistance listings listed in the Catalog may be identified by the 11-digit budget account identification code listed in the Budget. These codes also appear in the Financial Information section of each Catalog listing. A complete explanation of the identification code is provided in Appendix III of the Catalog (the Budget Functional Code Appendix). The Budget may be purchased from the Government Printing Office in the Washington, DC area and the U.S. Government bookstores listed in this Appendix.

The Code of Federal Regulations -- The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles, which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters, which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register; these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of

CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Code of Federal Regulations is available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

The Federal Register --

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

The Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register is also a vehicle for the announcement of newly authorized and/or funded assistance listings, notifications of funding availability, (NOFAs), assistance listing application deadlines, and other important information. The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulative for 12 months. The Federal Register and the Federal Register Index are available in Federal depository libraries and most major libraries or Federal bookstores. Additional Federal Register resources include, the Statistical Abstract of the United States; Weekly Compilation of Presidential Documents; The Federal Register: What It Is and How To Use It. All Federal Register publications may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

APPENDIX V: HISTORICAL PROFILE OF CATALOG LISTINGS

The following list shows all assistance listings printed in the Catalog of Federal Domestic Assistance beginning with the 1965 edition and the subsequent action taken related to that assistance listing. For the years 1965, 1967, and 1969 the listings did not have numbers. They were identified only by their titles. Therefore, the first part of each agency listing shows assistance listings by their title if they were in existence before 1970. The assistance listing CFDA numbering system was instituted in 1970. The first line shows the number and title of the assistance listing when it was added to the Catalog. The second and subsequent lines show the year the listing was added and any additional transactions, e.g., title changes, transfers, deletes, consolidations, agency reorganizations, number changes, etc., that may have followed. The alphabet B or U that follows a given year, indicates the transaction was made either in the basic (B) or the update (U) or the U1 and U2 are the first and second updates respectively, published that year.
